Synopsis of Canadian Northwest Land Requirements

The sole head of a family, or any male over 18 years of age, may claim 160 acres of available Dominion land in Manitoba, Saskatchewan, Alberta, and the Yukon. Applications can be made at the Dominion Lands Agency or Sub-agency. In the case of the Yukon, applications can be made at the Commissioner of Land Sales at the Yukon Land Sales Office, located at the Yukon Hotel, Whitehorse, Yukon. A habitable house is required except in certain districts where a house is not required.

Butcher—six months residence upon and cultivation of land. Price \$10 per acre. Duties—\$1 per acre per annum. Interest—\$1 per cent per annum. Price \$10 per acre. Duties—\$1 per acre per annum. Interest—\$1 per cent per annum. Price \$10 per acre. Duties—\$1 per acre per annum. Interest—\$1 per cent per annum.

A settler who has cultivated his homestead for three years, and has paid all taxes, may claim 160 acres and erect a house worth \$1000. Price \$10 per acre. Duties—\$1 per acre per annum. Interest—\$1 per cent per annum.

According to the Advance a demand was made of this new district to supply the settlers with a large number of horses and cattle. Price \$10 per acre. Duties—\$1 per acre per annum. Interest—\$1 per cent per annum.

MUNSON, ALBERTA, THURSDAY, SEPT. 14, 1916

DELIA NEWS BRIEFS

Mrs. S. Schatz and children have returned from a trip to the East. Miss G. Bacchus spent a few days recently in Calgary.

A Scott who was for some time employed at the Bank of Commerce has left his position and gone to Winnipeg.

A. Hale who has been assisting at the Crown Lumber Co. for several weeks has returned to Calgary.

Billie Shaw, after an extended trip east, is back in town again.

Frank Wannacott one of our former business men spent a day among us last week. Since leaving here he has enlisted.

Mr. and Mrs. Chas. Lyons have been receiving congratulations, it's a boy.

Dr. Piper, Dentist, will be at Drumheller the first 10 days of each month. Will visit Delia and Craigmyle as usual, Delta 24th to 26th, Craigmyle 27th to 29th of each month.

Mr. Eddy, a few days ago, dropped his hammer and saw and left town for a short period.

Mr. McMurray of Calgary, manager of the McMurray Shoe Co., was a visitor to the town early part of the week.

Miss L. Wilkin of Calgary will be here Friday and Saturday, Sept. 15 and 16th with a display of Ladies', girls' and children's fall millinery.

Herbert Robinson, junior clerk at the Bank for the past few months, we hear, has taken a short leave and is taking a course in farming. It is stated that it is very hard to keep him out of town, and that his work so far is shocking, he has proven himself capable of finding his way over the prairie in daylight or darkness until a few evenings ago when he hired a horse and rode away early in the evening leaving the impression he would return shortly but was not seen until the next day and is rather silent when asked about it. It was a cold night too.

Late the other evening at an hour when the town was settled down to a quiet state considerable racket and loud voices were heard a little north of the village, several who happened to be up late were attracted by the sound and rushed in that direction to learn the cause if possible and found when reaching the scene that it was only Scotty swinging a lantern and flourishing a broom trying to drive the black cats off his premises.

The regular meeting of the U. F. A. was held on Thursday afternoon Aug. 31st, and notwithstanding bad roads and inclement weather, eight ladies attended.

Through the courtesy of Mr. Fogarty the meeting was held in the office of the Farmers Elevator. As Miss Brasell had resigned the office as Secretary, Mrs. Rogers was asked to act as Secretary pro tem. The minutes were read and approved and when Mrs. Stevenson gave a brief synopsis of Mr. B. C. Milne's lecture on potatoes.

A letter from Mr. Benson, the Dominion Poultry Representative, was read in which he offered to lecture in Craigmyle on Poultry, also giving a practical demonstration of how fowl should be dressed for the market. It was decided to hold the lecture on the date for the regular October meeting and to throw the meeting open to all, serve simple refreshments and arrange a short program in addition to the lecture.

The resolutions of the U. F. A. and U. F. W. A. re municipal hospitals were passed next read. Moved by Mrs. Blare seconded by Mrs. Steele that the resolutions be most heartily endorsed.

The next letter was from Major W. G. Kirby in regard to the formation of a U. F. A. battalion. An animated discussion ensued in which it was pointed out that the Western farms were already depleted of labor, that men in the trench could not make a poor showing without food which is supplied by the farmers and that the man who stays at home on the land and strains every nerve to make it productive is helping the cause. A motion was passed that a negative reply be given to Major Kirby's letter.

The question of wholesale purchasing of supplies, was brought up and the following plan was presented:

To form a committee from both clubs to draw out lists of goods which might be bought wholesale, such as groceries, oils, a certain class of hardware, and dry goods.

To publish these lists in the local press and call for tenders for contracts to supply these goods to the farm clubs for six months or not more than a year.

The contractor's work might be reduced to a minimum all transactions to be strictly wholesale and

MORRIN NEWS ITEMS

Mariin is adding one more residence to her residential district, the house of Mr. Moody, which promises to be a fine little dwelling.

Walter Stickney and Ed Barth have gone to Calgary on business and we shall not be surprised if the former brings back a new car.

F. Boyer made a pleasure trip to Calgary this week before starting school in school.

We are sorry to lose our station agent, Mr. Wilson, wife, and family but we are in hopes our new agent, Mr. Burly will prove just as satisfactory and accommodating.

Harvesting is in full swing around Morrin and in spite of hail and frost there is a fair yield expected.

Geo. Andrews and Mrs. D. Farley spent Sunday at the Blue Bell Ranch east of town.

The following Red Cross sewing will be received this week:

2 bed jackets, Mrs. E. D. Patterson;

2 surgical shirts, Mrs. Knoll;

2 pair men's socks, Mrs. High;

2 bed jackets and 1 surgical shirt,

Mrs. Craig; \$1.00, Mrs. Reed;

\$1.00, W. Orr.

Mrs. E. Gilberson, who is returning to her home in Bristol, N. B. after teaching in B. C. for some time, is visiting with Mrs. D. Farley.

Report of the Craigmyle Farm Women's Club

The regular meeting of the U. F. A. was held on Thursday afternoon Aug. 31st, and notwithstanding bad roads and inclement weather, eight ladies attended.

Through the courtesy of Mr. Fogarty the meeting was held in the office of the Farmers Elevator. As Miss Brasell had resigned the office as Secretary, Mrs. Rogers was asked to act as Secretary pro tem. The minutes were read and approved and when Mrs. Stevenson gave a brief synopsis of Mr. B. C. Milne's lecture on potatoes.

A letter from Mr. Benson, the Dominion Poultry Representative, was read in which he offered to lecture in Poultry, also giving a practical demonstration of how fowl should be dressed for the market.

It was decided to hold the lecture on the date for the regular October meeting and to throw the meeting open to all, serve simple refreshments and arrange a short program in addition to the lecture.

The resolutions of the U. F. A. and U. F. W. A. re municipal hospitals were passed next read. Moved by Mrs. Blare seconded by Mrs. Steele that the resolutions be most heartily endorsed.

The next letter was from Major W. G. Kirby in regard to the formation of a U. F. A. battalion. An animated discussion ensued in which it was pointed out that the Western farms were already depleted of labor, that men in the trench could not make a poor showing without food which is supplied by the farmers and that the man who stays at home on the land and strains every nerve to make it productive is helping the cause. A motion was passed that a negative reply be given to Major Kirby's letter.

The question of wholesale purchasing of supplies, was brought up and the following plan was presented:

To form a committee from both clubs to draw out lists of goods which might be bought wholesale, such as groceries, oils, a certain class of hardware, and dry goods.

To publish these lists in the local press and call for tenders for contracts to supply these goods to the farm clubs for six months or not more than a year.

The contractor's work might be reduced to a minimum all transac-

tions to be strictly wholesale and

spot cash. After some considera-

tion it was moved by Mrs. Blare,

seconded by Mrs. Stevenson that Mr.

Smith and Mr. Stevenson be asked

to bring the matter to the attention

of the men's society.

Jean Stevenson, President

Red Cross Notes

"Character is not determined by a single act, but by habitual conduct." Because of the many times Red Cross work at different times in the past we should not think that we have done enough. It is impossible for us to do too much.

A Scotch lady, living not over a hundred miles away has knitted over two hundred and forty pairs of stockings since the outbreak of the war. She has worked at it in her spare time, and looks after her family of four little girls. Little examples such as this show us how little we are doing.

The Red Cross Sewing Guild meets every Wednesday. We would be delighted to have every lady who can possibly do so meet with us next Wednesday. Those who cannot meet us may share in the work too, by applying to work to do at home. We are always pleased to receive contributions of magazines and money. We acknowledge with gratitude donations of five dollars from Mrs. (Dr.) McConkey, \$2.50 from Mrs. J. B. Mitchell, 1 shirt from Mrs. McConkey.

Only one sample of grain and one potatoe can be sent to each farm.

As the supply of seed is limited, farmers are advised to apply early. Requests received after the end of December will probably be too late.

Anyone desiring a sample should write (post free) to the Dominion Cerealist, Experimental Farm, Ottawa, for an application blank.

A VARIETY OF SUITS FOR THE LITTLE FELLOW

A Modified Sailor Suit

MOTHERS of little boys are frequently puzzled regarding the proper clothing to select for them. They realize that they must keep away from any thing that savors of femininity, and yet they dislike to select styles that are so severe that they rob a child of his youthful appearance. A great variety of suits is offered for boys ranging from two to five years of age. The styles are sensible and full of individuality. After seeing them, mother should remain in doubt.

Blanket stitching, that form of embroidery so popular for embellishing various articles of dress, is effectively used to finish the front line of closing and the armholes of the blue suit. It is queer what little touches are required to give a suit an individual note. On this particular suit the graduated tabs at the top and the lone one at the bottom make the jacket stand out from the rest. White collars and cuffs, neatly hemstitched, give a finishing touch to the suit.

Stripes have long been in favor with women, and they have proved serviceable for boys' playtime clothes. A very clean looking suit is that one made of green and white striped percale. The suit consists of a loose hanging blouse and trousers that close on the side.

Patterned after mother's smock is the jacket of the white suit. It would prove dear to any little boy's heart for the pockets alone, if for no other reason. These

capacious affairs are made conspicuous by the addition of smocking done in yellow to match the shallow collar of yellow pongee. Blanket stitching and a few French knots outline the yoke. The knickerbockers and the jacket are of white pongee. White plique has been used for the comfortable cap.

In the sailor style is the suit consisting of brown trousers of linen and a blouse of white linen. Tucks, hemstitching and narrow ruffles of the material are important features of the blouse. The tiny tie repeats the color of the trousers and gives the whole costume a real manly air.

A sailor suit, especially if it is made a little bit different from the regulation type, is always becoming to the little lad of three or four. The green suit having a double-breasted blouse is softened by the introduction of white collar and belt. As a rule, hand embroidery is not suitable for a boy, but here a wise use of the handwork has been made on the corners of the collar. The black tie twisted into a sailor knot and the white-bound pocket in the blouse are points which are sure to make the suit attractive to any masculine child.

While these suits are made of wash materials, any one of them can be simplified in serge or one of the fashionable mixtures. As a rule, however, the washable clothes for small folks prove more satisfactory in the long

Preserving Eggs For Winter Use

By George Robertson, Central Experimental Farm, Ottawa.

At the time of the year that eggs are most plentiful and are lowest in price it behoves the careful housewife to take thought for the future.

It would not offend the careful housewife to have produced to her down "some eggs against the time of low production and high prices. What is the sense of using eggs for hatching in winter? Eggs subjected to this treatment till about dozen when, by using a little forethought, you can get a dozen or more of eggs as are materially affected by the process.

though in the main the results have been very satisfactory, we are of the opinion that there was a conservative as a preservative.

Now we will consider what if the eggs are dipped in dilute sulfuric acid for about five seconds after being taken from the shell and will give the eggs a fresh smell and will give the eggs a fresh taste. After dipping the eggs from the acid they should be washed with water from a hose or similar apparatus to remove the further action of the acid. In immersion the acid lessens the tendency of the egg to break. Eggs subjected to this treatment till about dozen when, by using a little forethought, you can get a dozen or more of eggs as are materially affected by the process.

England in War Times

Took a Year for Britain to Thoroughly Organize for War

Ernest C. Digby, one of the ablest men on Northfield's staff of expert consultants, has written a paper, visiting America, and has given his impressions of the evolution of England's war effort.

"The great difficulty in England," he says, "was 'the lack of knowledge' of the art of war, and the masses as to the real reason why England participated in the war." He adds: "England is, as was Napoleon over a hundred years ago, 'the last man to learn'."

"Wild elephants, on the other hand, while all rigorously trained, were sent to the front at huge costs (\$100,000 per month) and at great risk."

"If England had withdrawn her support from Belgium, she would have gained a valuable ally in her head up as an honorable nation in Europe. England today is fighting for the principles of Louis Philippe, Fort Hall and Mount Kenya, and even elsewhere a special license to do as they please."

"Wild elephants, on the other hand,

while all rigorously trained, were sent to the front at huge costs (\$100,000 per month) and at great risk."

"Waterglass has been largely re-

commended as a preservative for ordinary use, and it certainly has many advantages, but it is not so easily obtained at any drug stores at a small cost and it is easily prepared, the directions being simple.

In the second place, it is particularly suitable to the producer, as it is the best preservative for ordinary use, and it certainly has many advantages, but it is not so easily obtained at any drug stores at a small cost and it is easily prepared, the directions being simple.

"I think it may be taken for granted that even among the masses of people in this country, who realize the immense service America has rendered the world in this war, and the terrible tests evidenced by the two nations, no one would be likely to say that the whole of Belgium has been beaten in having run amok."

"It is to be deplored that the elephants follow the example of the giraffes in the war area, as the temptation of ivory might prove too strong for them, and they will be transported as easily as giraffes."

"The German army is, however, still in the same position as the English, realize the immense service America has rendered the world in this war, and the terrible tests evidenced by the two nations, no one would be likely to say that the whole of Belgium has been beaten in having run amok."

"We had to not only make munitions for ourselves, but owing to the munition works near Petrograd were blown up last year.

"In addition to the only large amount

of munitions available, we had to

transport stores for the army, which along with these large and interesting supplies, had to be transported by sea, and all the food, arms, munitions and supplies for the channel passage as if for a voyage to New York. And, as we had to put direct trucks into the factories and tanks to base, we could not know what they are needed."

"It is said that for the English

army, the cost of war is

wars to thoroughly organize not

only our supply of ammunition, but

making of supplies of all kinds that

are needed by an army of the magnitude of ours."

"We had to not only make munitions for ourselves, but owing to the

munition works near Petrograd were

blown up last year.

THE LOCAL ROUND-UP

Are you contributing your share to the Patriotic Fund.

Mrs. T. Whyte returned on Friday from Coronation.

H. W. Hutchings was a visitor in Craignyle on Friday.

A. H. Jones and wife motored to Calgary Saturday returning Tuesday.

Don't forget the boys in the trenches. Call and leave two bits for the Mail Tobacco Fund.

D. Nei Shing, proprietor of the Delmonico Restaurant, returned last week from a trip to China.

Corp. A. J. Riggs, wife and little son returned Friday from a visit with friends in Stettler.

J. A. Tully, Agent for the Odd Fellows Relief Association, was in town today.

Born—On Sunday, Sept. 3, 1916, to Mr. and Mrs. Kane, Munson, a son.

Born—On Monday, Sept. 4, 1916 to Mr. and Mrs. F. Dodd of Morrin, a son.

John S. Campbell, recently of Dawson, Alaska, Yukon, is visiting with A. Finlayson and other relatives in this district.

A number of the friends of Mr. and Mrs. R. L. Harvey had a very pleasant evening at their home on Friday evening. The time was spent at games and music. Refreshments were served during the evening.

W. C. Chambers, of Sunbeam, purchased a new Ford Touring car last week from H. A. Skinner, the Ford Dealer.

The C. N. R. has the side track west of the station for the freight shed just about completed and will soon begin work on the shed.

A. Stillman, Blockman for the Masson-Harris Co., is in town taking stock at the T. R. Hughes agency.

The little daughter of William Brannock of the Ant Hill District met with an accident recently in which she sustained a broken arm.

Miss Lettie Colvin returned to Regina Sunday after a few days visiting here. Her mother accompanied her home for a visit.

Sgt. Thompsons of the 194th Battalion, a returned veteran, spent a few days visiting at the home of Mr. and Mrs. H. A. Skinner next week.

John Watson and sister, Miss Annie, gave an informal dance and house party at the A. Fraser home west of town on Tuesday night and those present report a very enjoyable time.

F. H. Sloan has taken a position in the collection department of the Crown Lumber Co. He left on Tuesday for a trip to the district east of here.

There were several degrees of frost in this locality last night, but we are told that most of the grain that is still standing is far enough advanced that no great damage will be done.

L. A. Flett of Delia was in town Wednesday.

A dance will be held in the Electric Theatre tonight (Thurs.). The Delta orchestra will furnish music.

The harvest passes of the soldiers in some of the battalions have been extended until Oct. 1, which will be good news for the farmers who have soldiers engaged for the harvest.

A. W. Carpenter and wife, who have been spending the summer in town with their sons, William and S. D. Carpenter, left on Monday for their home in Des Moines, Iowa. Mr. Carpenter is still suffering from a fall received in an accident about a month ago.

"A New Heaven and a New Earth wherein dwelleth Righteousness," is the subject of the sermon at the Methodist Church on Sunday next. All are cordially invited to be present. Don't forget the Wednesday evening service from 8 to 9 o'clock.

Roy Parkinson, accompanied by S. D. Carpenter, G. C. Dunham, and T. R. Hughes, drove W. K. Clark's Hippomobile to Calgary on Sunday last returning Monday by train. The roads from Beiseker almost to Calgary were in very bad condition caused by too much rain, but barring a few punctures no serious difficulties were experienced.

A man will excuse any fault in the woman who is not his wife.

A man's work is from sun to sun and a woman's work is from daughter to daughter.

SENTINEL HILL NEWS

Weather is the topic of conversation in our district. The very wet condition of the fields are preventing the harvesting of the crops.

Mrs. D. McPherson has returned from a week's visit in Calgary. She was accompanied to Calgary by her sister, Mrs. Coulhardt of Manitoba, and Mrs. MacCullum of Ontario, who had been visiting her for some weeks. They were on their return journey to their respective homes.

Miss Jessie Hoy who has charge of our school here, is winning the approval of her pupils.

The School Board is having the school re-painted. Mr. MacDonald is the painter in charge.

Mrs. Patterson and small son of Mrs. Patterson are visiting at the home of Mrs. Patterson's brother, Mr. A. Chase.

L. Hoy and D. A. Currie of Drumheller visited at Mrs. Hoy's on Sunday last.

A number of the farmers here are employing soldiers during their harvest leave of absence from Sarre camp.

Pte. Jas. Fleming of the 175th Batt. is with Mr. Argot at present.

Mrs. Stevenson of Calgary is spending some time with her parents, Mr. and Mrs. Aitken.

J. Littlejohn has recently built a substantial barn, and a house is to be erected too, it is understood.

WAR LOAN

DOMINION OF CANADA

Issue of \$100,000,000 5% Bonds Maturing 1st October, 1931.

PAYABLE AT PAR AT

OTTAWA, HALIFAX, ST. JOHN, CHARLOTTETOWN, MONTREAL, TORONTO, WINNIPEG,
REGINA, CALGARY, VICTORIA.

INTEREST PAYABLE HALF-YEARLY, 1st APRIL, 1st OCTOBER.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 97¹/₂

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st APRIL, 1917.

THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

The Minister of Finance offers herewith, on behalf of the Government, the above named Bonds for subscription at 97¹/₂, payable as follows—

10 per cent on application,

30 " " 15th October, 1916;

30 " " 15th November, 1916;

27¹/₂ " " 15th December, 1916.

The total allotment of bonds of this issue will be limited to one hundred million dollars exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of October, 1916, or on any instalment date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the October instalment.

Specified certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereby by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as

to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid in full at par at the office of the Minister of Finance and Receiver General at Ottawa and at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary, or Victoria.

The interest on the fully registered bonds will be paid by cheque which will be remitted by post. Interest on the bonds will be paid by cheque or by means of coupons. Both cheques and coupons will be payable free of exchange at any branch in Canada of any chartered bank.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognized bond and stock brokers will be allowed a commission of one-quarter of one per cent on allotments made by the Minister of Finance. This commission will be provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.
